Our Race for Life fundraising. Let’s go!

4000 We fund over 4000 scientists, doctors and nurses

£80 buys DNA helix template - chemical building blocks that make up a strand of DNA

£30 buys RNA polymerase - key enzyme in the cell, allowing scientists to find out more than ever before about cancer

£400 buys fluorescent particles that our scientists can use to watch the movement of cancer cells

Our target is

£

The big day!

Our aim is for 3 in 4 people to survive their cancer by 2034

Ditch the uniform for a day and pay £1 to wear your own clothes to school

We are ordinary people doing something extraordinary. Together we will beat cancer. raceforlife.org/schools
